

BIRDS ONLY

BIRD FEEDER SYSTEM

Patent Pending

*Naturally
prevents
bear,
squirrel,
raccoon,
and deer
from
looting
your
birdfeeder.*

REWARD

**Are unwanted guests
invading your birdfeeder?**

**Remove the
"reward" and
eliminate damage
from natural
foraging
creatures.**

Serious bird enthusiasts will appreciate the elimination of bird feeder damage by natural foraging creatures.

The BIRDS ONLY Feeder System removes the "reward" by positioning feeders far from the reach of bear, deer, squirrel, raccoon and other non-winged animals. And BIRDS ONLY not only keeps feeders safe, it also reduces seeds and debris falling to the ground with an innovative design that facilitates easy clean out.

Now with this tested and proven system, you can enjoy peaceful year-round bird feeding!
